

11 SEPTEMBER 2017

More than half a million people celebrated City Day at VDNH

On 9 and 10 September 2017, as is traditional, VDNH became one of the main sites of Moscow's City Day. More than 50 events in the holiday programme, 17 interactive Children Cities, and more than 500 thousand visitors — this is the scale of the celebration of the 870th anniversary of the capital at the Main Exhibition of the country.

The weekend's main event was the traditional Children's City, this year dedicated to architecture. The children tried their hand at being builders, designers, engineers, and landscapers. Pleasant presents, miracles, and transformations were waiting for young visitors in every corner of VDNH. **17 interactive Children City sites** were located throughout the Exhibition from the Friendship of Peoples fountain to the City Farm and Ostankino Park. **One hundred animators** helped guests to navigate at the holiday.
